

**SAVILLE & HOLDSWORTH'S**

**TEST OF NUMERICAL CRITICAL REASONING, NMG2**

This thirty-five minute test measures ability to evaluate business related numerical data. The data presented is designed to be relevant to managerial work.

When considering the difference in scores between two candidates you should allow an interval of 2 SEMs before you can confidently say that there is a reliable difference in measured ability.

\* \* \* \* \*

Assessment of managerial candidates across a range of functions and organisational levels

RAW SCORE	PERCENTILE	RAW SCORE	PERCENTILE
31	99	15	55
