

**SAVILLE & HOLDSWORTH'S
 TEST OF NUMERICAL ANALYSIS, NMT4**

This test of Numerical Analysis measures the ability to make correct inferences and decisions from business-related numerical data presented in the form of graphs, charts and tables of figures.

CANDIDATE NAME:

DATE:

POSITION APPLIED FOR:

RAW SCORE:

NUMBER OF ITEMS ATTEMPTED:

PERCENTAGE CORRECT:

When considering the difference in scores between two candidates you should allow an interval of 2 SEMs before you can confidently say that there is a reliable difference in measured ability.

NORMATIVE DATA

Assessment of candidates in senior managerial positions.

RAW SCORE	PERCENTILE	RAW SCORE	PERCENTILE
30	99.8	15	53
29	99	14	47
28	98	13	42
